

ADA versus SSAA

The date for the annual Australian Deer Association (ADA) versus Sporting Shooters Association (SSAA) challenge has been set for **February 21st 2021 at 1.00pm** (following the Centrefire 100yd score competition)

It is a fun event where competitors shoot at a deer sized silhouette without any visible score zones in field positions (offhand/standing post etc). Scores are determined by placing a scoring template on the silhouette after placing 3 shots on the target.

You will only need 9 rounds to compete; calibre must be 0.243" or greater (legal deer hunter calibre)
